**Professional Summary** Software Engineer Intern

**Education** Metropolitan International University January 2023 - December 2025  
Bachelor's, Computer Science GPA: 4

- Projects**
- Marketing Manager** Kampala, Uganda  
DRF, PostgreSQL  
October 2024 - October 2024

  - Developed a robust Marketing Manager application using Django REST Framework (DRF) and PostgreSQL for the backend, and Next.js for a responsive frontend
  - The application features APIs for creating, updating, and deleting marketing campaigns.
  - [Link to project](#)
- Car Showcase Next.js App** Kampala, Uganda  
Next.js

  - Developed a car marketplace application using Next.js that allows users to select vehicle manufacturers,
  - brands, and fuel types. The application integrates with an API to retrieve real-time data, providing users
  - with an intuitive experience for browsing and filtering vehicles. Utilized modern web technologies to
  - ensure responsiveness and performance, enhancing user engagement and satisfaction.

- Dog API (Django Rest framework)** Kampala, Uganda  
Backend

  - Developed a RESTful API using Django REST Framework for a Dog API project, implementing full CRUD operations (Create, Read, Update, Delete)
  - The API allowed users to manage dog information, including breeds, age, and other attributes, with authentication and validation features
  - Optimized for efficient data retrieval and seamless integration with frontend applications.
